EDUCATION

DePauw University - B.A. Computer Science and Economics

Greencastle, IN

GPA: 3.69/4.00 (Computer Science: 3.83/4.00, Economics: 3.58/4.00)

Aug. 2023 – Expected May 2027

- **Organizations:** Association for Computing Machinery (ACM), CodePath, Girls Who Code, Rewriting the Code

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript, HTML/CSS, SQL

DevOps & Security: Docker, Datadog, Grafana, Elastic, Fortuna, Jenkins, GitHub Actions, Trivy, AWS ECS

Tools & Frameworks: Git, React, Node.js, Express.js, OpenAI API, NumPy, MongoDB

TECHNICAL EXPERIENCE

DevSecOps Software Engineering Intern

May 2026 – Aug 2026

United Services Automobile Association (USAA)

Phoenix, AZ

- Engineered **Python** dependency detection and package resolution for **pip/pipenv/poetry/uv** in a **Vulnerability Remediation agent**, adding validation tests and reducing CVE remediation time by **83%**
- Automated research and selection of **Docker** base image and **Red Hat Hardened Image** upgrades for Python projects in the CI, reducing manual patching time by **80%** while maintaining current security baselines
- Configured **Datadog** monitoring across **6** Marketing Tech insights to detect requests exceeding **3-second** latency budgets and trigger automated alerts for performance degradation

Software Engineer Intern

June 2025 – Aug 2025

AI Glow

Remote

- Developed a **React**-based frontend for an AI education platform, improving navigation and **UI/UX** which increased website traffic by **25%**
- Integrated a **Tidio** chatbot for payment support, reducing navigation errors and lifting user satisfaction by **15%**

PROJECTS

DeP10 Extension for Pep/10 | [GitHub](#), *Java*, *Pep8*, *HTML*

Jan 2026 – Current

- Extended Pep/10 Assembly Language with **16-bit** and **32-bit** multiplication/division functions via the Accumulator Register, removing instruction-set limitations for **15-20** students per Compilers and OS course

Secure CI/CD Pipeline | [GitHub](#), *Jenkins*, *Docker*, *AWS ECS*, *Trivy*

June 2025 – Aug 2025

- Wrote Jenkins test suites validating API endpoints, cookie configuration, and response headers, catching authentication and **CORS** misconfigurations pre-deployment
- Integrated **Trivy** into **GitHub Actions** and **Jenkins** to scan Docker images and auto-fail builds exceeding **CVSS** thresholds

My GrocerPal: AI-Powered Nutrition Assistant | [GitHub](#), *MongoDB*, *OpenAI API*

Feb 2025 – Apr 2025

- Developed a full-stack **REST API** using **Express.js**, **Node.js**, and **MongoDB** with **JWT-based** authentication and **CORS** middleware securing user-authenticated grocery-list routes
- Integrated **OpenAI API** with structured **JSON** parsing and rate-limit handling to reliably deliver categorized grocery and recipe data to the frontend

UNIVERSITY LEADERSHIP EXPERIENCE

- **Teaching Assistant (STEM Guide):** Debug **Java/C++** for **30+** students in weekly office hours, diagnosing syntax errors (e.g., missing semicolons, scope issues) and conceptual gaps for exams (Aug 2025 – Current)
- **Vice President of ACM-W:** Led open-source workshop for **15+** students using **GitHub**; built TigerHacks mentorship program supporting **5+** teams with debugging and problem-solving (Jun 2025 – Jul 2026)
- **Science Research Fellow:** Built a **Python linear regression** model using **pandas** and **Google Colab** to predict salaries, evaluated with **R²** to assess model accuracy (Jan 2025 – Current)
- **Hillman Intern**, Prindle Institute for Ethics: Head intern leading **8 interns** facilitating **2** ethics education programs with **15+** members each; edit case materials and lesson plans weekly (Aug 2024 – Current)
